PROFESSIONAL PROFILE

Strategic and results-driven Software Engineer with over **14 years of experience** in architecting enterprise-level applications. Expert in **C#/.NET, Node.js, and the TypeScript ecosystem**, with a proven track record of leading digital transformations for global leaders like **Verizon Wireless** and the **Dominican Congress**. Beyond technical execution, I bring a unique "Ownership" mindset, specializing in modernizing legacy systems and building cloud-native, user-centric solutions across Web, Mobile, and Desktop platforms.

PROFESSIONAL EXPERIENCE

Software Engineer | Congress of the Dominican Republic (*Dec 2020 – Present*)

- **Company Context:** The legislative branch of the Dominican government focused on national laws and fiscal oversight.
- **Core Functionality:** Development of the National Legislative Information System and the Public Transparency Portal.
- **Analyzed and designed application flow** for the National Budget Public Portal, integrating Digital Document reading, Processing, RESTful API, and SQL.
- **Migrated webForms modules to a modern web environment** using C# and [ASP.NET](#), entity framework, applying SOLID principles, and improved project scalability.
- **Ensured data integrity:** By normalizing the tables, stored procedures and views..

Software Engineer | EPAM Systems (Client: Nordstrom) (*April 2022 – April 2023*)

- **Company Context:** Global digital transformation for **Nordstrom**, a luxury American retail chain.
- **Core Functionality:** Full-stack engineering for high-traffic retail enterprise applications within a global microservices architecture.
- **Developed and scaled full-stack features** using Node.js (NestJS) and React within global cross-functional teams.
- **Managed containerized environments** and automated GitLab CI/CD pipelines to ensure environment parity.

- **Ensured building and deployment** of codebase through **AWS pipelines, managed Images** through the **S3 bucket service**.

Software Engineer (Team Lead) | Newtech (Client: Verizon Wireless) (*Aug 2017 – Nov 2021*)

- **Company Context:** Global telecommunications leader.
- **Core Functionality:** Operations and lifecycle management of worldwide wireless network platforms and operational tools.
- **Led a cross-functional team** within a 100+ member global Scrum organization.
- **Migrated legacy modules** from C# ASP.NET WebForms to Node.js/Express and React.
- **Analyzed and designed secure application flows** using SSO, authentication, and Authorization.

Software Architect & Mobile Developer (Consultant) | Suenna Electronica (*Jan 2010 – Present*)

- **Company Context:** Family-owned electronics business specializing in power inverters and energy solutions.
- **Core Functionality:** End-to-end development of a centralized ERP ecosystem (PHP/Laravel/MySQL) and specialized modern satellite applications.
- **Architected "ProductBundler":** A standalone Full-Stack application (Angular/NestJS/PostgreSQL) with secure authentication to automate wholesale/retail price lists and "Tailored Combo" creation.
- **Designed and deployed a Flutter mobile application** for inverter error diagnostics, providing instant technical solutions and simplified client-facing explanations.
- **Maintained 14+ years of data integrity** through regular database optimization and stored procedures for data cleansing.

CORE COMPETENCIES

- **Languages:** C# (.NET Core/Framework), TypeScript, JavaScript, PHP (Laravel), Dart (Flutter), Visual C++, SQL.
- **Backend:** Node.js (NestJS/Express), ASP.NET Web API, RESTful APIs, WebSockets.
- **Frontend/Mobile:** React, Angular, Flutter (Mobile), Redux, Ant Design, SASS.
- **DevOps/Databases:** Docker, AWS, CI/CD, Linux (CentOS), PostgreSQL, MySQL, MSSQL, MongoDB, Firebase.

EDUCATION & CERTIFICATIONS

- **Bachelor of Computer Science Engineering** | 2010
- **Software Architecture: From Developer to Architect** | LinkedIn Learning | 2021
- **Scrum Foundations Professional Certificate (SFPC)** | CertiProf | 2021

- **Technical Specializations:** React (2022), Angular (2021), Flutter (2020), Visual C++ (2018).
-

TECHNICAL PORTFOLIO

- **ProductBundler:** Angular/NestJS Pricing and Bundle Engine.
- **Inverter Diagnostic App:** Flutter Mobile App for field technicians.
- **National Budget Portal:** React/PostgreSQL High-Traffic Government Tool.
